

ULTRA-BLEND™ 2000**Alkyl phenol formaldehyde resins**

Typical Properties

Appearance	Brown pastilles
Specific Gravity	1.07
Softening Point °C	128
Physiological behaviour	Refer to Safety Data Sheet
Storage stability	At least 2 years under normal conditions

Packaging

25 kg polyethylene bag

Product Description

ULTRA-BLEND™ 2000 improves the building tack of synthetic rubber compounds. It displays outstanding long-term tackifying effects.

ULTRA-BLEND™ 2000, as opposed to standard tackifier, shows its strength in aged tack improvement at relatively low dosage levels; between 3 and 5 phr.

Dosage

3 to 5 phr

The information and data contained in this data sheet are believed to be correct based on our best knowledge. Therefore, any information is given on condition that users shall make their own assessment of suitability of the product for a specific purpose. We accept no liability for any use or application unless explicitly stated by us. These data are not to be considered as specification.

All values stated in the properties are typical numbers only.
