

Technical Data Sheet

ULTRA-BLEND™ 6000

Mixture of light coloured, aliphatic hydrocarbon resins

Typical Properties

Appearance	Yellow pastilles
Specific Gravity	0.97
Softening Point °C	103
Physiological behaviour	Refer to Safety Data Sheet
Storage stability	At least 2 years under normal conditions

Packaging

25 kg polyethylene bag

Product Description

ULTRA-BLEND™ 6000 is a non-staining homogenizer that improves the homogeneity of polymer blends of different polarities and different viscosities. It also increases green tack of rubber compounds by showing some synergism with tackifying resins.

Due to its light colour, ULTRA-BLEND™ 6000 is recommended for white and coloured compounds.

Dosage

2 to 5 phr

The information and data contained in this data sheet are believed to be correct based on our best knowledge. Therefore, any information is given on condition that users shall make their own assessment of suitability of the product for a specific purpose. We accept no liability for any use or application unless explicitly stated by us. These data are not to be considered as specification.

All values stated in the properties are typical numbers only.
