

Technical Data Sheet

ULTRA-FLOW™ 600**Zinc soaps of unsaturated fatty acids on an inert carrier**

Typical Properties

Appearance		Beige to yellow pastilles ^[1]
Specific Gravity		1.15
Dropping Point	°C	90
Ash Content	%	20
Physiological behaviour		Refer to Safety Data Sheet
Storage stability		At least 2 years under normal conditions

Packaging

25 kg polyethylene bag

Product Description

ULTRA-FLOW™ 600 behaves similar to **ULTRA-FLOW™ 500**; it improves mixing and processing as well as the incorporation of compound ingredients.

ULTRA-FLOW™ 600 is compatible with most types of elastomers, except for halogenated polymers.

Dosage

2 to 5 phr

^[1] Our products are made from natural based raw materials and exhibit different shades. Depending on storage conditions and period the products may develop discoloration. These color variations do not deteriorate the product effectiveness.

The information and data contained in this data sheet are believed to be correct based on our best knowledge. Therefore, any information is given on condition that users shall make their own assessment of suitability of the product for a specific purpose. We accept no liability for any use or application unless explicitly stated by us. These data are not to be considered as specification.

All values stated in the properties are typical numbers only.
