

Technical Data Sheet

ULTRA-FLOW™ ZEH DL**67% Zinc 2-ethylhexanoate on silica carrier**

Typical Properties

| | |
|-------------------------|--|
| Appearance | Yellow powder |
| Specific Gravity | 1.4 |
| Zinc Content | 14.5 |
| Physiological behaviour | Refer to Safety Data Sheet |
| Storage stability | At least 2 years under normal conditions |

Packaging

20 kg with cable tied polyethylene bag in carton box

Product Description

ULTRA-FLOW™ ZEH DL is a dust free powder form of **ZEH**. It can partially or completely replace stearic acid and helps in reducing creep and stress relaxation of NR vulcanisates.

It can also improve the reversion resistance of NR compounds as well as compression set of NR vulcanisates.

Dosage

2 to 3 phr

The information and data contained in this data sheet are believed to be correct based on our best knowledge. Therefore, any information is given on condition that users shall make their own assessment of suitability of the product for a specific purpose. We accept no liability for any use or application unless explicitly stated by us. These data are not to be considered as specification.
All values stated in the properties are typical numbers only.
