

Technical Data Sheet

ULTRA-LUBE™ PE110**Polyethylene wax**

Typical Properties

Appearance	Off white beads
Specific Gravity	0.93
Melting Point °C	110
Physiological behaviour	Refer to Safety Data Sheet
Storage stability	At least 2 years under normal conditions

Packaging

20 kg polyethylene bag

Product Description

ULTRA-LUBE™ PE110 is a homo-polymer polyethylene wax for application in most polymers. It improves flow and processability.

ULTRA-LUBE™ PE110 provides excellent release from metallic surfaces as well as improving surface finish of moulded articles.

Dosage

1 to 3 phr

The information and data contained in this data sheet are believed to be correct based on our best knowledge. Therefore, any information is given on condition that users shall make their own assessment of suitability of the product for a specific purpose. We accept no liability for any use or application unless explicitly stated by us. These data are not to be considered as specification.

All values stated in the properties are typical numbers only.
