

Technical Data Sheet

ULTRA-PEP™ 181

Blend of 40% dibenzamido diphenyl disulphide on low melt carriers without catalysts

Typical Properties

Appearance	Beige pastilles
Specific Gravity	1.1
Dropping Point °C	55
Physiological behaviour	Refer to Safety Data Sheet
Storage stability	At least 2 years under normal conditions

Packaging

25 kg polyethylene bag

Product Description

ULTRA-PEP™ 181 is a chemical peptiser for natural rubber based on DBD and extremely effective at low dosage levels. It is environmentally friendly because of completely dust free appearance. The low melting point of the carrier material ensures a fast, easy incorporation, even at lower mastication temperatures. The material is non-staining/discolouring, thus suitable for light coloured compounds.

Dosage

0.1 to 0.5 phr

The information and data contained in this data sheet are believed to be correct based on our best knowledge. Therefore, any information is given on condition that users shall make their own assessment of suitability of the product for a specific purpose. We accept no liability for any use or application unless explicitly stated by us. These data are not to be considered as specification.

All values stated in the properties are typical numbers only.
