

Technical Data Sheet

ULTRA-PEP™ 96

Blend of 13% dibenzamido diphenyl disulphide and organo metal complex on low melt carriers

Typical Properties

Appearance		Bluish grey pastilles
Specific Gravity		1.25
Dropping Point	°C	57
Ash Content	%	17
Physiological behaviour		Refer to Safety Data Sheet
Storage stability		At least 2 years under normal conditions

Packaging

25 kg polyethylene bag

Product Description

ULTRA-PEP™ 96 is a combined peptizing and processing additive for natural rubber.

ULTRA-PEP™ 96 is easily dispersed in rubber due to its content of dispersing agent present.

ULTRA-PEP™ 96 is extremely active and therefore can be used at low dosage levels. Its peptizing action starts at 90 °C but reaches an optimum at 140 °C.

Dosage

0.2 to 0.5 phr

The information and data contained in this data sheet are believed to be correct based on our best knowledge. Therefore, any information is given on condition that users shall make their own assessment of suitability of the product for a specific purpose. We accept no liability for any use or application unless explicitly stated by us. These data are not to be considered as specification.

All values stated in the properties are typical numbers only.
