

Technical Data Sheet

ULTRA-PLAST™ TP07

Ethylene-Bis-Stearamide

Typical Properties

Appearance Beige pastilles [1]

Acid Value 8.0 Dropping Point °C 143

Physiological behaviour Refer to Safety Data Sheet

Storage stability At least 2 years under normal conditions

Packaging

25 kg polyethylene bag

Product Description

ULTRA-PLAST™ TP07 works effectively as an internal/external lubricant in most plastics and WPC composites. It has high heat stability and shows no discolouration at temperature up to 230° C.

ULTRA-PLAST™ TP07 can be used with coupling agents in WPC applications.

Dosage

0.1 % to 0.5 %

The information and data contained in this data sheet are believed to be correct based on our best knowledge. Therefore, any information is given on condition that users shall make their own assessment of suitability of the product for a specific purpose. We accept no liability for any use or application unless explicitly stated by us. These data are not to be considered as specification.

All values stated in the properties are typical numbers only.

^[1] Our products are made from natural based raw materials and exhibit different shades. Depending on storage conditions and period the products may develop discoloration. These color variations do not deteriorate the product effectiveness.
